# FLUORESCENT SUMMER

Soft to the touch and to the view, velvet is proposed in bright colors and gives a glamour touch to the sandals with wedge and platform in rope. We find suede details in the funny striped espadrillas, and on slingback sandals in fluorescent colors, that have black profiles both in the elegant low-heel version and in the sportier version with thicker white outsole. Suede also for the models with round shapes, with an ankle strap closed by a metallic buckle, both in the version with white rubber sole or column heel.

SMOOTH LEATHER & SUEDE

COLOR:  
CYCLAMEN, COGNAC & BLACK

UNIQUE PRODUCT:  
BREATHABLE

**IDR 3.199.000**

# JUNGLE FEVER

The collection moves to the warm and natural shades of the savannah, with animal patterns and ethnic prints. We have slingback sandals crossed on the front, with high heel and a small plateau with wooden-effect print; or sandals with lower heel and ankle strap; or flat shoes with a charming embellishment in metallic studs along the sole profile. The plateau has soft and round shapes in the sandals with snake-print leather strips, or it's in rope, both in the models in animalier suede, in the espadrillas or in the original models with tassels.

**IDR 2.999.000**

# COUNTRY ROMANTIC

Natural shades and patterns, made through the traditional threading technique, embellish those shoes that are perfect for the first weeks of SS20. The mood reminds of country atmospheres where the nature combines, in colors and materials, with elegant and romantic interiors. Ankle boots are the real transitional products, new items that can be sold at full price and are ideal for the beginning of the season.

D02FLB
